THE POLITICS OF EVIDENCE WORKING GROUP PRESENTS:

# IS YOUR BODY A TOXIC SITE?

*reproductive health as an environmental issue*  
AN EVENING OF DISCUSSION

How is human reproductive health affected by everyday encounters with a group of chemicals known as endocrine disruptors? This evening's discussion will explore what we know about the endocrine disrupting chemicals in our waters, air, and consumer products, and our relationship to science, government, industry and environmentalism. What does the research tell us? How are they regulated here in Canada?

## WHY DON'T WE KNOW MORE?

**WHEN** Friday, May 15, 2015  
**WHERE** University of Toronto, Emmanuel College, Rm 001  
75 Queen's Park Crescent  
**TIME** 7pm. Doors open at 6pm  
**ADMISSION** Free

Space is limited. Please register at:
